Checkpoint: Determining Sums Using Mental Strategies

- Evaluate the following expressions.
- Choose a strategy that you would use to determine each sum.
- Explain your reasoning for choosing each strategy.

Strategies	
compatible numbers	making tens
compensation	place value

1 $57 + 68$

To determine the sum, I am using the _____ strategy.

I chose this strategy because the numbers allow me to think about . . .

2 $22 + 43 + 68 + 87$

To determine the sum, I am using the _____ strategy.

I chose this strategy because the numbers allow me to think about . . .
