## Time for Cake

Ms. Carol is sharing a cake with Samantha and Alan. Ms. Carol asks, "Do you want a slice of cake that is one-fourth of the cake or one-eighth of the cake?"

I would like to have a slice that is one-fourth of the cake because fewer parts means bigger pieces!

I would like to have a slice that is one-eighth of the cake because eight is more than four!

### Samantha

Do you agree with Samantha? Draw a picture to show why you agree or disagree with Samantha.

### Alan

Do you agree with Alan? Draw a picture to show why you agree or disagree with Alan.
