

Transcript – Zooming In Further

Next, we are going to zoom in even further on the Side-by-Side TEKS Comparison document. For this, I'd like you to choose a number between one and six.

Got it? Good, you've just chosen your strand for this lesson.

Study your assigned strand from your current TEKS for content that

- remains or is clarified,
- is new, or
- is deleted.

Record brief notes on your Individual Study Recording Sheet, found in your journal. Feel free to do this with the other five listed strands if you'd like.

Review the summaries and place an exclamation point next to the most important idea. Place a question mark next to an idea you are still unsure about.
